It's a stay-cation planting scheme!

This planting scheme is for everyone who cannot escape to the tropics! You can plant some sun loving blooms and foliage in your own backyard!

You can also mix and match with existing containers.

Or take a walk on the wild side and place a 3'h container directly in your planting bed and plant a Canna King Humbert for a sizzling display

Water your Canna's consistently and be sure to fertilize with a 10-5-10 or 10-10-10 each month

*Note: do not worry if your planting bed is not 12' l. This is scheme shows bulbs spaced out
